PHOTO GUIDE

# How to shoot photos for your AI Drone Tour

Your video is made from your own listing photos. The better the photos, the smoother the flight. This takes about 15 minutes.

## 1 Prepare the home

- Shoot in daylight, with all lights on.
- Open the curtains and all interior doors.
- Tidy up.
- No people or pets in the shot.
- Move cars away from the front of the house.

## 2 Camera settings

- Landscape (horizontal).
- Use the widest lens. 0.5x is fine if it doesn't bend straight lines.
- Hold the phone level, at chest height.
- No filters, no portrait mode, no zoom.
- At least 1920 px on the long side. Any modern phone does this; screenshots and copies sent through messaging apps are often too small.

## 3 Exterior

**Front of the house** Required — Upload slot: **Exterior / facade**
1 straight-on photo of the front of the house or the entrance, plus 1–2 from an angle.

**Terrace / garden** Recommended
Upload slot: **Terrace / garden**
The garden or terrace seen from the house, and the house seen from the garden.

## 4 Each room

2 photos per room, taken from opposite corners, so we see the whole room.

**Living room** Required — Upload slot: **Living room**

**Kitchen** Required — Upload slot: **Kitchen**

**Bedroom(s)** Recommended — Upload slot: **Bedroom(s)**
Main bedroom first.

**Entrance / hallway** Recommended
Upload slot: **Entrance / hallway**

**Dining** Recommended — Upload slot: **Dining**

**Bathroom(s)** Recommended — Upload slot: **Bathroom(s)**
Main bathroom first.

## 5 Connecting shots

Optional – very helpful — Upload slot: **Connecting shots**

★ **The most important tip**

- Stand in each doorway and take one photo that shows both rooms through the opening, for example the hallway into the living room, or the living room out to the terrace.
- The camera can only fly through openings we can see in the photos.
- No connecting shot = no flight between those rooms.

## 6 Agent video clips

Optional – very helpful — Upload slot: **Agent video clips**

- Short, slow, steady walk-throughs of 5–15 seconds.
- Landscape. No talking needed.

## 7 Check and upload

- At least 8 good-quality photos, ideally 12–20.
- Upload them into the matching room slots in the order form.
- Then press **Upload photos and continue**. We check your photos automatically first.

Go to the order form: aidronetour.com

### Checklist

- [ ] Front of the house
- [ ] Living room ×2
- [ ] Kitchen ×2
- [ ] Main bedroom ×2
- [ ] Entrance / hallway
- [ ] Dining
- [ ] Bathroom
- [ ] A connecting shot for each doorway on the route
- [ ] Terrace / garden
- [ ] Agent video clips

### Don'ts

- ✕ Blurry or dark photos
- ✕ Tilted horizons
- ✕ Only close-ups or details
- ✕ Heavily edited or over-done HDR photos
- ✕ Watermarks
- ✕ Text on the photos
- ✕ Floor plans as photos
